

District Programs

K-Family Growth

This subcommittee is responsible for the growth of clubs in the district. By building a Key Club, a K-Kids, a Builders Club, or any other branch of the K-Family, we seek to expand the number of service clubs in the district. The goal is to build at least 1 Kiwanis, 1 Key Club, 1 K-Kids, and 1 Builders Club by DCON 2016. To achieve this, this subcommittee assists NJ District Board members in targeting and building clubs in their division. If you know of any school interested in forming a K-Family Club, contact LTG Julian or LTG Yasmine at ltg11.maceren@gmail.com and ltg6.abed@gmail.com, respectively.

Advocacy

The advocacy subcommittee is focused on raising awareness about a specific issue that needs support from organizations like Key Club. Inspired by the many touching stories from people who work with autistic children, the New Jersey District has chosen autism as its advocacy focus in order to help improve the treatment of people with autism in schools, work facilities, and communities. Through hands-on projects, advertisements, and campaigns, we seek to raise awareness and make a difference in the district.

K-Family Relations

This subcommittee aims to strengthen the relationship between the K-Family Clubs in NJ by coming up with and promoting district event ideas with other branches of the K-Family. It is the subcommittee's job to create a directory of all the K-Family Clubs in New Jersey. If you have an idea for a district wide service project, please contact LTG Ciara at ltg22.clarkin@gmail.com
